

2500 Series Lawn Tractor

The 2500 Series is built with one goal in mind - to make your lawn as beautiful as possible. Foot-controlled acceleration from its Tuff Torq® Hydrostatic Transmission gives you great traction and smooth operation. The 14" turning radius allows you to get close to trees and landscaping for less hand trimming. This Massey Ferguson® Lawn Tractor provides the best cut with comfort and style to match.

Tight 14" turning radius allows you to get close when trimming around trees and landscaping.

The durable Tuff Torq® transmission offers a hydrostatic drive for an automotive-like feel.

Experience the same great cut you expect with added durability of a fabricated mower deck.
